FEMCODE AFRICA

June 2021

A four months long bootcamp for front end development with React. It was a great and life changing experience and at the end of the program I acquired a certificate of participation in FRONT END DEVELOPMENT.

Projects:
www.susanndukwe.com: The website I built for the burial ceremony of my Mother in her loving memory. A website where everyone can leave a tribute.
https://insure-landing-page-task.netlify.app/ : In my bits to practice more about bootstrap I participated in a challenge from front end mentors and built this site to the best of my abilities
https://blogr-femcode-project.netlify.app/ : After the cause of my four months program I was giving this project designed by front end mentors to replicate and it was a wonderful experience doing so.
https://flyo-dark-theme.netlify.app/ : In other to get myself busy I made this website to practice responsiveness of a website without any framework.
